NiCE Project Study Tour #4 in the City of Linköping, Sweden

Welcome to the City of Linköping and the City Hall, the 9th of May, for the fourth NiCE project study tour meeting.

- 09.00-09.30 **Welcome to the City of Linköping (at the City Hall)**
Presentation of the participants and the agenda
- 09.30-10.45 **Presentation of the Saab City Cooperation Center Project (SCOP)**
SCOP includes design, set up, implementation and demonstration of the City Cooperation Center concept in Linköping and João Pessoa in Brazil during the time period 2013 and 2014. The project will specifically address and demonstrate functionalities and synergies between four selected city sectors or domains: Energy, Traffic, Water and Environment.
- 10.45-11.45 **Presentation of the smart public transport ICT systems**
Includes a short walk and travel to Mjärdevi Science Park with public biogas driven bus. We will also demonstrate and look inside a “surfable” Wifi/4G lightning pole (from Ericsson).
- 11.45-12.30 **Lunch**
- 12.30-14.30 **Visit at Ericsson Mjärdevi Site**
Visit at Ericsson’s Mjärdevi Site in Linköping including presentation of
- Energy effectiveness in Global ICT Data Centers
- City center Optimal Radio Coverage
- City center blending Radio Site installations
- 14.30-15.45 **Presentation of Linköping’s experiences of using the ICT Carbon Footprint Tool**
Short walk to LKDATA (city ICT department) where we take part of experiences of using the ICT Carbon Footprint Tool and how it is used for strategic and operational purposes.
- 15.45-16.00 **Summary and round up of the day**
- 16.00- **Travel to Linköping City Airport**
